Engineered Cabling Solution

1U UTP UNLOADED PATCH PANEL - CMX1UKUN

Browse on Mobile

Browse on Web

NEXCONEC 1U 24 ports unloaded keystone patch panel allows flexibility for the users during installations. It gives you the benefits of only using ports required by installing the desired number of jacks into the frame. The 4 front modules are removable which provides the easier and faster installation of keystone jacks.

With the port identification number which help the end user to recognize the ports while/after installation. When mounted with NEXCONEC unshielded keystone jacks for Cat 5E, Cat 6 and Cat 6A, your completed panel will conform to **ANSI/TIA/EIA 568A-B.2.2001**, **ISO/IEC11801:2002** and **EN50173-2** standards.

This unloaded keystone jack patch panel comes with cable ties, cage nuts and rear cable management bar as standard.
