Browse on Web

NEXCONEC Category 6A STP feed-through adapter patch panels are specifically designed and manufactured to deliver robust standards-based performance ensuring optimum bandwidth for today's high-speed network applications. Category 6A feed-through adapters support all applications designed for Class EA networks as defined within ISO/IEC 11801:2011 including 10GBASE-TX (10 Gigabit Ethernet).

### FEATURES

- ✓ Conform to IEC, EIA-TIA performance
- ✓ Small form RJ45 feed-through adapters 24port fully loaded in 1U panel
- ✓ 19" rack mountable
- ✓ Supplied with rear cable managers and fixings
- ✓ Port numerically identified

### APPLICATIONS

- ✓ Supports category 6A (Class EA) networks running up to 500MHz applications
- ✓ Connection between wall outlets or equipment
- ✓ Backwards compatible with category 6 and 5e distribution systems

## SPECIFICATIONS

| Parameters            | Value                                    |
|-----------------------|--|
| Height                | 44.45mm                                  |
| Width                 | 482mm                                    |
| Contact Material      | Phosphor Bronze + Gold Plated pins       |
| RJ45 Jack Life        | Min. 750 Insertions                      |
| Termination Wiring    | TIA-568A or TIA-568B                     |
| Operating Temperature | -10°C / +60°C                            |
| Compliance            | ANSI/TIA-568-C.2, ISO 11801, IEC 60603-7 |
| RoHS                  | Compliant                                |
| Warranty              | 12 Months                                |
| Depth                 | 151.5mm                                  |
| Panel Frame           | Carbon Steel, Powder Coating             |
